INDIVIDUAL RECORDS

Scoring

Historically most Serra football seasons have consisted of nine or ten games played. Individual statistics from 1947 (8), 1949 (8), 1950 (8), 1952 (7) and 1971 (8) should be considered in the light of a shorter season of seven or eight games played. With the expansion of playoffs many seasons since 2000 have consisted of anywhere from eleven to fifteen total games played and those season statistics should be viewed accordingly.
